

## STAY CONNECTED WITH NEWFORMA

Connect to other best-in-class products assuring project information is available when you need it and wherever you need it – at the office, from the cloud, or on the go. Project Center's connected environment reduces double entry of data, mitigates risk and improves efficiency.

### EMAIL

Enable team members to gain control over their email inboxes and ensure that project-related messages are captured as part of the project record.

- MS Outlook and Exchange Server
- MS Office 365
- IMAP solutions like Google Gmail

### FINANCIAL BUSINESS SYSTEMS

Streamline project startup thru the exchange of financial system project and contact data - saving time, eliminating opportunities for mistakes and assuring consistency of data across solutions.

- Deltek Vision
- Microsoft Global Address List (GAL)
- J-Media CMAP
- Cubic-Interactive Rapport 3

### ELECTRONIC DOCUMENT MANAGEMENT SYSTEMS

Search, access, update, markup and relate documents stored in on premise electronic document management systems.

- Bentley ProjectWise
- Microsoft SharePoint Document Libraries (on premise version)
- IBM FileNet

### STORAGE REPLICATION TECHNOLOGIES

Leverage the power of storage replication technologies to deliver LAN like performance while maintaining document integrity.

- Panzura
- Nasumi
- Microsoft
- Peer Software

### VIEWING TOOLS

Configure Newforma to use your favorite 3rd party viewing tool.

- BlueBeam PDF Revu
- Adobe Acrobat

### BUILDING INFORMATION MODELS (BIM)

Synchronize BIM sheets and parameters as well as room and space data between Autodesk Revit and Newforma.

Import clashes from Autodesk Naviswork's Clash Detective into Newforma as action items.

### MULTIPLE COMPANIES USING NEWFORMA

Newforma to Newforma enables two or more companies, using Newforma, to work together as if they are on the same system reducing duplicate data entry and streamlining the coordination and exchange of project information like files, RFIs and submittals.

### FILE SYSTEM

Display and access all folders and documents related to a project, no matter where the files reside on the network, including project information in electronic document management systems.
